Read the following letter from a lady in Maine:

"Since I was cured of a dreadful bacess and its effects several years ago, I have never hesitated to recmmend Hood's Sarsaparilla for impure blood, and as a general spring medicine. The abscess was on my side and it caused me terrible agony. At the same time sores broke out on my hands and arms. and the inflammation in my eyes was such that sometimes I could hardly see. I did not have any appetite, could hardly sleep, and Was very nervous.

"A good name at home is a tower as long as I lived. I was in this dreadful condition three years. When my brother came from Lowell. Mass., to visit me he told me how much was thought of Hood's Sarsaparilla in the city where it was made, and urged me to try it. So I did, and when I had taken two bottles, my nerves seemed very much quieted, I slept well, and my appetite was improved. The sores soon disappeared, and my eyes became much better.

"Therefore I have taken it every spring since, and I do not think too much can be said in its praise. My health is now very good, and I keep Hood's Sarsaparilla in the house all the time. If I get tired and nervous I find Hood's Sarsaparilla gives me strength so that can rest well, and feel refreshed in the morning, ready for my day's work.
